

**BOYS & GIRLS CLUB**  
**OF GREATER BILLERICA**

3/13/2020

Dear Fun Club Families,

As you know, our management team here at the Boys and Girls Club is consistently reviewing our plan of action related to the newest Coronavirus developments. Our top priority is the health, safety, and well-being of our children, families, and staff members. As such, we will be following the recommendations of the local DPH, CDC, and the Billerica Public Schools. Much like a snow emergency closing, our policy is to close all Fun Clubs, and the Boys and Girls Club, in coordination with the closure of Billerica Public schools. If the Billerica Public Schools are closed, we will also be closed.

Please understand that, if there is a concern regarding a staff member, or other Boys and Girls Club member that may have been in direct contact with our programs, we may make the decision to close programming, despite the Billerica Public Schools being open.

In the event of a closure, upon the announced reopening of the public schools, our management team will make a decision when we are going to reopen our Fun Clubs and facilities. We fully understand the impact that a full closure will have on the many families we serve in this community.

During these times, these decisions are not easy to make but, we must do what is in the best interest of the safety and health of our community members.

Please continue to check your emails and visit our Facebook page for updated information regarding our club and policies related to Coronavirus.

Sincerely,

Will Vallely

Director of Childcare

Boys and Girls Club of Greater Billerica
